

LOUVRELITE® WINDOW SURROUND

NON-STRUCTURAL WINDOW DESIGN FEATURES

The LouvreLite® Window Surround System is a decorative cladding system that helps create visually interesting architecture by adding depth to a facade and a pop of colour if you want it.

- + Non-structural makes specification and installation easy
- + Decorative Aluminium has the benefit of being highly durable and maintenance free
- + Can be colour powder-coated to blend in with a wall or stand out with a pop of colour
- + Custom made in New Zealand
- + Hidden fixings for a seamless finish
- + Complies with NZ building codes B1, B2, F2
