

Juralco® Edge® Canopy System

BPIR Declaration

Version: 2-22 v2

Designated building product: Class 2

Declaration

Glass Specialists (Timaru) Limited trading as HomePlus Timaru has provided this declaration to satisfy the provisions of Schedule 1(d) of the Building (Building Product Information Requirements) Regulations 2022.

Product/system

Name	Juralco® Edge® Canopy System
Line	
Identifier	

Description

Edge Canopy Fixed Awnings are an ideal solution for entranceway shelters for homes, hotels, apartment buildings and office complexes. The high-quality extruded arms and connection plates can be custom powder coated in a colour of your choice. The arms are custom-made to any projection up to 1200mm and can be combined to form either a single or continuous canopy. Infills in toughened glass; clear, or tinted grey, green, or bronze or as an alternative, 60mm powder coated slats.

Scope of use

The Edge Canopy installation manual details the documents the Juralco Edge Canopy System refers to in relation to the New Zealand Building Code, the manufacturer's documents, products used in the System, and requirements in relation to fixing and surface finishings.

Conditions of use

- Only extrusions, components and hardware supplied by or specified by JABP may be used in the Edge Canopy System.
- Aluminium extrusions, components, and hardware – unless specified are manufactured to 6060 T5 specifications.
- Stainless Steel components, hardware, fixings – all components to 316 grade.
- Glass - all glass used in the Juralco Edge Canopy System must be toughened and conform to the specifications as listed in the Juralco Edge Canopy manual with each panel conforming to AS/NZS 2208 as confirmed by the Safety Stamp detailing the manufacturer's description and licence number.
- The Juralco Edge Canopy System must only be installed in accordance with the Juralco Edge Canopy System installation manual.
