

5200 SERIES WARDROBE DOOR SYSTEM

The 5200 Series Wardrobe Door System a versatile and elegant solution for custom hollow core sliding doors.

Crafted with high-quality materials and a sleek finish, this system offers both functionality and style, making it the ideal choice for any home.

The 5200 Series Wardrobe Door System is engineered to provide a simple yet effective bottom rolling solution for large opening wardrobes. With double and triple track options, this system ensures a low-profile aesthetic and a sturdy feel, maximizing your storage space.

+ DESIGNED FOR HOLLOW CORE AND TIMBER PANELS

The 5200 Series is designed to accommodate standard and custom panels available from local merchants, meaning there is an incredible amount of versatility in the system that can provide a timber or painted finish.

Available in standard sizes from local merchants or custom sizes up to 2700mm high and 1200mm wide, the 5200 Series is adaptable to any requirement.

+ DURABLE ALUMINIUM TRACKS

Designed to carry panels weighing up to 50kg each and made with high quality materials, the 5200 track is capable of covering large openings and the guide is sturdy while remaining low profile.

+ AESTHETIC APPEAL

The system lets the door panel do all the talking, with the low profile design, the 5200 is unobtrusive and minimalist.

The aluminium tracking is available in Pearl White, Silver Frost, or colour matched to the design of the home using a range of Dulux Powder Coats.

+ EASY INSTALLATION

The system can be installed on any new build or retrofitted to an existing home with a number of custom solutions provided by our expert installers.
