- 5 year warranty on balustrade*
- Available in a wide range of Dulux® Powder Coat Colours, with a 10 or 20 year warranty
- Choice of Laminated or Toughened Glass
- Masterspec Details — Section 4852JB

SUPERIOR SAFETY BARRIER, IN A STYLE OF YOUR CHOICE

The Edge balustrade system is a stylish solution for safety barriers on decks, stairways, balconies, handrails or as pool fencing.

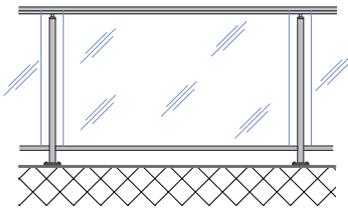

Made from high quality aluminium, the Edge balustrade system can incorporate either toughened glass panels or aluminium balusters, with a choice of finished styles such as framed glass, semi-frameless glass and split rail balusters. It has also been developed to offer a greater variety of modern finishes, such as hidden fixings and a special gutter bracket system for fixing onto floating and waterproof decks.

The Edge balustrade system has been engineered to offer superior structural strength and tested and assessed by independent engineers to exceed the requirements of AS/NZS1170 and French standard NR P01-13 (1988-08).

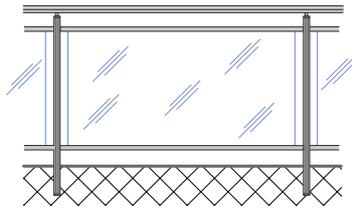

All of the Edge systems have a choice of four elegantly styled handrails, with an additional interlinking rail available for the 10mm toughened semi frameless glass finish, which is mounted onto a handrail bracket, fixed to the face of balustrade posts. Alternatively, 13.2mm laminated glass can be used with a slim 6mm protective top cap.
